

I think the DO NOT CALL LIST is a wonderful thing! It really eliminates the interruptions of my quality time with my family. I work full time and to be interrupted in the evening while finally sitting down to relax is very annoying. To take away this service would be insane. It makes too many people happy unless you would like to ruin that....like most government agencies these days!!! I hope you people finally listen to the PEOPLE of this state...the citizens that pay our taxes so that you can get your paycheck....why don't you help the little people be happy!!!!!!
